EASYACOUSTICS HEXAGON 60 MM

EasyAcoustics will improve the sound and the look of any room in an instant. With the included hook lath, these playful hexagons can be mounted on the wall in just a few simple steps. Create the most intriguing patterns by combining different colours and add a special 3D effect with a varying depth of blocks.

PET FELT

PET Felt is a sustainable and durable material made from recycled plastic bottles. Thanks to its open-cellular structure, PET Felt demonstrates great acoustic properties. PET Felt panels are soft to touch, impact-resistant and easy to process.

COLOURS

Since PET Felt is a recycled material, slight colour deviations may occur between different batches. It is recommended to order the required quantity at once to make sure the panels come from the same batch.
