- Easy to mount and process
- Impact-resistant
- Sold in sets of 2 panels

Material	PET Felt
Size	1200 x 600 x 9 mm
Weight per set	1.8 kg
Reaction to fire classification	B-s1, d0

ACOUSTIC PET FELT PANELS STRIPES

Continuous geometric lines of the Stripes panels create an intriguing wall pattern. The panels are tileable and ready for installation. Besides applying the Stripes as a single aesthetic layer, they can also be mounted on top of a plain PET Felt panel for a special 3D effect.

PET FELT

PET Felt is a sustainable and durable material made from recycled plastic bottles. Thanks to its open-cellular structure, PET Felt demonstrates great acoustic properties. PET Felt panels are soft to touch, impact-resistant and easy to process.

COLOURS

Since PET Felt is a recycled material, slight colour deviations may occur between different batches. It is recommended to order the required quantity at once to make sure the panels come from the same batch. Keep in mind that the panels have a nap direction on both sides. To avoid alterations in appearance, we advise to check the nap direction and mount the panels on the same side.
